Alcohol Policy with Important Information Regarding Other Drugs
Chemical Health
In accordance with federal legislation, known as the Drug-Free Schools and Communities Act, the University of Richmond is required to communicate the following information regarding the unlawful possession, use, or distribution of illicit drugs and alcohol to its students and employees. Although most of the policies and programs described on these pages have been in effect for some time, federal regulations stipulate that information about them must be distributed annually.

Each member of the University community is encouraged to make “risk-aware” choices regarding the consumption of alcohol or the use of other psychoactive drugs. Members of the campus community who choose to use such drugs are expected to consider the risks of harm to self, others, and the community-at-large. To mitigate the harmful behavior associated with such drugs, the University has established policies to eliminate the use of illicit drugs and to limit the consumption of alcoholic beverages on campus.

It is our individual responsibility to understand and abide by the regulations as defined by the University, the Commonwealth of Virginia, and the federal government governing the use and distribution of alcohol and other drugs. These regulations apply to all members of the University community and its guests and visitors. Persons who infringe upon the rights of others, break the law, conduct themselves in a disorderly manner, or damage university property are accountable for their actions. Such persons are subject to University disciplinary sanctions (up to and including removal from this community) and/or criminal action. Such harmful behavior is absolutely at variance with the mission of the University. Because the University of Richmond strives to achieve a healthy living and learning environment, the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on the University’s property, or as a part of its activities, is prohibited.

On a less formal note, those of us involved in student development administration remain concerned about the effects of substance abuse in achieving your full potential as a University student. Though much of the following appears “legal”, it should also serve as a reminder that the abuse of drugs and alcohol is both a detriment to you as an individual and to our campus community as a whole. We hope you will take the time to read this important policy.

Alcohol
Alcohol is the most widely used drug among American college students, even though it is illegal for anyone under the age of 21 to purchase, possess, or consume it. Alcohol is a factor in many campus problems. Recent national campus statistics* show that alcohol is involved in:

- approximately two-thirds of all violent behavior
- almost 90% of “acquaintance” incidents
- almost half of all physical injuries
- about one-third of all emotional difficulties among students
- just under 30% of all academic problems.

*From “Alcohol—Decisions on Tap,” American College Health Association brochure.

The Effects of Alcohol
Alcohol is a depressant drug that is absorbed into the bloodstream and transmitted to all parts of the body, most significantly affecting the brain. It is classified as a psychoactive drug because of its effects on the mind and behavior.

The impact of alcohol varies among individuals, but even moderate doses of alcohol reduce physical coordination and mental alertness, making certain activities dangerous, such as driving or sexual relations, among others. Larger doses of alcohol cause staggering, slurred speech, and slowed reaction time. Even larger doses can cause mood swings, memory blackouts, unconsciousness, and even death.

Health risks involved with long-term heavy drinking include: liver damage, heart disease, circulatory problems, peptic ulcers, various forms of cancer and irreversible brain damage. Other risks associated with binge drinking, as well as long-term heavy drinking, include impairment problems such as being arrested for DUI, drinking and driving crashes, getting into fights, accidents, and academic problems.

Individual Differences and the Effect of Alcohol
Alcohol affects everyone differently. There are several factors that cause any two people to have a different immediate response to alcohol (or cause the same person to respond differently on two different days). Important factors in determining how alcohol might uniquely affect you include:

Drinking Rate
Your body is able to metabolize an average of about 1/2 ounce of alcohol per hour. There is approximately 1/2 ounce of alcohol in one twelve-ounce beer, one four-ounce glass of wine and one ounce of 100-proof distilled spirits. Sipping your drinks will allow your body the opportunity to “burn-up” the alcohol as you drink. Also, mixing distilled spirits with carbonated beverages (i.e., soda) speeds up the absorption of the alcohol. Mixing distilled spirits with food product mixers (e.g., orange juice, tomato juice) slows alcohol absorption.

Food and Alcohol
Drinking alcohol on a full stomach will slow absorption. Foods high in protein, such as cheese and meat, are the most effective in slowing absorption.

Body Composition and Alcohol
Lean mass, or muscle, contains more water than fat, and thus aids the dilution of alcohol in the body. Generally speaking, women will be affected more severely than men by the same amount of alcohol because usually their bodies are smaller and have less muscle.

Mood/Tiredness/Environment and Alcohol
These three factors all have an impact on how alcohol will affect you. If you are “H.A.L.T.” (hungry, angry, lonely, or tired), alcohol will affect you more than usual. Also, the environment in which you are drinking will have an effect. For instance, you are likely to be influenced to drink more and more rapidly in a loud, crowded “party” atmosphere rather than in a quiet, calm, relaxing environment.

Other Drugs and Alcohol
It is never a good idea to mix alcohol with any other drug, whether it’s an illegal drug, a prescription, or an over-the-counter drug. Some drugs interact with the alcohol to accelerate and perpetuate the effects of either or both drugs, occasionally to toxic levels. The combination of alcohol and barbiturates is particularly dangerous due to their interaction causing an extreme depression in the functioning of the central nervous system and other organs.
Signs of Addiction
There are two types of alcohol problems:

1. Impairment problems (such as an arrest for DUI, car accident, etc.)
2. Health problems (such as liver cirrhosis or alcoholism)

Both types of problems can result in very serious outcomes. Many people experience severe impairment problems well before actual health problems begin to show up. Usually, both types of problems gradually become more serious as addiction worsens. Addiction itself is a gradual but progressive process. The signs of addiction to alcohol (or any other drug) include:

- Preoccupation with the drug and the securing of its supply
- Loss of control (it controls you rather than you controlling it)
- Continued use in spite of negative consequences
- Relapse (repetition of quitting and reusing)

Other warning signs of alcohol problems include blackouts or memory loss while intoxicated, academic problems, relationship problems, increased tolerance (drinking much more than before to obtain the same effects), and denial of having an alcohol problem.

Chemical Health Guidelines

1. The use of alcohol is a personal choice.
2. Alcohol use is not essential for enjoying social events.
3. There are times when it is important for everyone to abstain from alcohol or other drug use. Examples include: when recovering from chemical dependency; when the alcohol or other drug use is illegal; when pregnant or nursing; when operating equipment — motor vehicles, motorcycles, boats, tools, firearms; when swimming, skiing, climbing or doing other physical activity; when at work or studying; when performing in athletics or fine arts; when taking certain medications.
4. Drinking that leads to impairment or intoxication is unhealthy, risky, and should be avoided and discouraged.
5. Illegal drug use has specific health, legal, and ethical risks and should be avoided and discouraged.
6. Tobacco use has significant risk and should be avoided and discouraged.
7. Medications should be used only as prescribed or according to directions.
8. The level of impairment reached after consuming alcohol is influenced by many factors. In addition to the number of drinks (defined as 12 oz. of beer, 4 oz. of wine, or 1 oz. of distilled spirits), body size, gender, age, other drugs, fatigue, illness, altitude and the presence or lack of stomach contents all present implications for impairment.
9. There are ways to minimize health and safety risks when serving alcohol. Examples include: moving focus from alcohol to friendship and conversation; offering alcohol-free drinks that are easily available; providing food; creating an environment that allows guests to feel comfortable making a personal choice about alcohol use or nonuse; assuming responsibility for helping guests who may have had too much to drink.
10. Avoid situations where someone else’s alcohol, tobacco, or other drug use may put you at risk.

*Risk (Reducing Impairment through Supplementing Knowledge)*
Participants will attend three (3), 90-minute group sessions facilitated by a community substance abuse counselor. This course focuses on helping students understand the risks and consequences of use. The facilitator will assess student choices; explain the continuum from use, to abuse and dependence and who is at risk. Students learn about self-care, responsibility and the importance of balance in their college environment.

Zero-One-Three (0-1-3) Guideline

Zero (0): For some guests, it may be most appropriate that no alcohol is consumed, especially if they are:

- On medication or under a physician’s care
- Under stress or are exhausted
- Pregnant or nursing
- Under the age of 21, or if their personal values would be compromised
- In recovery from alcoholism or have an alcoholic member of their immediate family
- Planning to operate a motor vehicle
- Preparing for a paper or exam.

If none of the above describes your guests, the following should be used as a guide:

One (1): For guests consuming alcohol, no more than one drink (one drink being equivalent to a 12 oz. Beer, 4 oz. Wine, or 1 oz. Of distilled alcohol) should be consumed per hour.

Three (3): For guests consuming alcohol, no more than three alcoholic drinks should be consumed per day and never daily (Taken from Michigan Highway Safety Department).

The use of alcohol presents risks which are different for each individual. For more information regarding low-risk choices, please contact Dan Fabian (x8835).

**ALCOHOL POLICY**

Members of the campus community and campus guests who choose to consume alcoholic beverages are expected to do so responsibly and in consideration of the consequences to self, others, and the community-at-large. Every individual is expected to recognize the potential for alcohol abuse whenever alcohol is consumed, and that such abuse is absolutely at variance with the mission of the University. To mitigate abuse, the University has established policies and regulations to limit the use of alcohol and to regulate the consumption of such beverages on campus. Persons who infringe upon the rights of others, who conduct themselves in a disorderly manner, or who damage or destroy University property shall be regarded as irresponsible in their decisions, accountable for their actions, and subject to disciplinary and/or criminal action.

The regulations and practices governing the use of alcoholic beverages apply to all members of the University community, guests and visitors. The primary responsibility for knowing and abiding by the provisions of the University’s alcoholic beverage policy rests with each individual.
Alcoholic Beverage Deliveries

Third party vendors are prohibited from delivering alcoholic beverages to the University of Richmond campus for personal consumption or for consumption at student events, for which an ABC License has not been secured.

**Regulations for individuals:**

1. The use of alcoholic beverages on the campus is expected to be in compliance with federal, state and local laws as well as University policy.
2. Virginia State Law prohibits the purchase, possession, or consumption of beer, wine, or distilled spirits by persons under 21 years of age.
3. Virginia State Law also prohibits the purchase for, or the serving of alcohol to, individuals who are not of legal age for possession or consumption.
4. Failure to comply with policies and guidelines presented in this document or violations of the law, including such activities as disruptive behavior, public intoxication, driving while intoxicated, damage to public or private property, or the use of altered or fraudulent identification cards will result in University action and/or criminal charges.
5. Any individual will be considered in possession of alcohol which may be reasonably associated with him or her. Examples of association include, but are not limited to, the following: any alcohol found within a resident's room or apartment unit will be considered to be associated with the residents of that room/unit, any alcohol being carried or transported by an individual (whether open or closed) will be considered to be associated with the individual carrying the alcohol, and any open container of alcohol resting near an individual may be considered to be in possession of the individual.
6. The possession and/or consumption of alcoholic beverages in fraternity lodges, residence hall rooms (not public areas), and University Forest Apartments, as an individual action which is not part of an organized function, is limited to individuals of legal age.
7. Students are expected to have a University of Richmond ID and another age identification document (e.g., driver’s license) in their personal possession. A University official, staff member, or designee may request to see age identification from the student if it is suspected that the student is under the legal drinking age or is in the process of or has committed an alcohol policy violation.

**Regulations for organizations/departments and approved campus guests/groups:**

(Refer to Procedures and Regulations for Implementation)

1. Prior to registering an organizational/departmental event on campus where alcohol is possessed, served, or consumed, a responsible key member of the hosting organization/department must be aware and knowledgeable of organization's responsibility for compliance with the University of Richmond Alcohol Policy and Virginia ABC laws and regulations. Approved campus guests/groups are also responsible for compliance with University of Richmond Alcohol Policies and Virginia ABC laws and regulations.
2. The consumption of alcoholic beverages in a designated campus area is limited to registered functions sponsored by recognized organizations/departments of the University of Richmond or University approved guests/groups. All such events shall be closed to all but members of the University of Richmond community and their personally invited guests/groups.
3. University Forest Apartments and residence halls are not approved areas for organizational/departmental events with alcohol present.
4. All University of Richmond organizations/departments sponsoring off-campus functions at which alcoholic beverages are served are expected to regard themselves as representatives of the campus community and to respect the University's valuation of personal responsibility and accountability. Although the University cannot monitor the environment external to the University campus, student organizations/departments or individuals may be held responsible for their actions off campus.

**Approved Locations:**
The consumption of alcoholic beverages at registered organized functions on campus is limited to the areas listed below. All other areas of the campus are considered public areas where the use of alcohol is prohibited unless the Vice President of Student Development, or his representative, grants an exception. It is the responsibility of the campus department or organization to secure this permission.

Public Consumption Policy
The laws of the Commonwealth of Virginia prohibit the consumption of alcoholic beverages, whether in primary or secondary containers, in unlicensed public areas. The University does not permit transportation of alcoholic beverages in open primary or secondary containers outside the designated areas. Therefore, use on campus is restricted to residence hall rooms (not public areas), University Forest Apartments and approved locations.

Registration Policy and Deadlines
Any organization/departmental function held in a University facility at which alcoholic beverages are present or consumed must be registered at least 10 working days in advance with the Coordinator of Substance Abuse Education. Greek organizations holding events in their lodges must register events four working days in advance with the Center for Student Involvement. All other arrangements related to use of a University facility for an event must be approved 10 working days in advance by University Services, Events and Summer Conference Office in the University Facilities Building or by the Coordinator of the Jepson Alumni Center for events being held at that location. Events which utilize the University of Richmond's Dining Services ABC license must be coordinated with University Dining Services a minimum of five days prior to the scheduled event. Richmond's campus hosts thousands of events a year and anyone planning an event is advised to make both facility and catering arrangements well in advance.

ABC Temporary License (see) https://www.abc.virginia.gov/licenses/get-a-license/banquet
Virginia State Law, and/or the University of Richmond, may require an event, at which alcohol is served, to be licensed by the Virginia Alcoholic Beverage Control Board. University Dining Services is licensed by the ABC Board for events they serve on campus and handles all legally required notification to the ABC Board. For events not served by University Dining Services, the sponsoring organizations/departments/ approved guests/groups may be required to obtain an ABC temporary license. Contact the Coordinator of Substance Abuse Education to determine if a temporary ABC License is required.

Procedures and Regulations for Implementation of the Alcohol Policy for Organizational/Departmental Events On-Campus
An addendum to this policy statement provides Procedures and Regulations for the Implementation of the Alcohol Policy. This addendum speaks to faculty/staff, Greek organizations, residence life, student organizations and other related groups and activities. Substantive changes to the General Statement must be approved by the Board of Trustees.

Procedures and Regulations for Implementation of the Alcohol Policy for Organizational/ Departmental/Approved Guest/Group Events On-Campus
Alcohol consumption at organizational/departmental/ approved guest/group events
1. Approved campus guests/groups are also responsible for compliance with University of Richmond Alcohol Policies and Virginia ABC laws and regulations.
2. Event Responsibility and Supervision: Organizations/departments must designate a host to supervise each sponsored event. The host shall take reasonable steps to enforce and comply with local, state, and federal laws and UR regulations governing the use of alcohol.
3. The host may be required to use an approved method of legal age verification for all guests at the request of Dining Services or Student Development. All alcohol events of 100 guests or more may be required to utilize tickets, wrist bands or hand stamps to provide a method to comply with Virginia ABC guidelines as noted above.
4. Who May Attend: Attendance at organizational/departmental events at which alcoholic beverages are present, shall be open only to members of the UR community and their personally invited guests. The sponsoring organization/department and the attendees may be held responsible financially for damages or other problems created by their guests.

   b. Closed—Members and personally invited guests/groups.
   c. Open—Open to University community and invited guests/groups.

Police personnel may be required at the direction of the Vice President for Student Development, the Chief of Police, the Director of Dining Services or their representatives.
7. Alcohol Amount: Sponsoring organizations/departments in planning the amount of alcohol available will take into consideration the number of legal-aged individuals attending the event.
8. Serving Times: The maximum serving time for any alcoholic beverage is five hours during scheduled serving times for the given date. Service of alcoholic beverages must end 30 minutes prior to the scheduled conclusion of the event, unless the service of alcohol is two hours or less (i.e., receptions). For events more than two hours in length, where a meal is not served, alcohol service must end 30 minutes prior to the scheduled conclusion of the event. Food is required at all alcohol events as noted in number 15 below.
9. Number of hours for Open, Closed, and Private Functions: An organization/department/ approved guests/groups may sponsor events that total no more than five hours per day where alcoholic beverages are present and/or served or consumed. If an event exceeds two hours, and a meal does not follow, no alcohol can be served during the last 30 minutes of the event schedule. Permissions must be granted for additional time or events.

If the event is determined to be out of control, the University Police, in consultation with the event chairperson and/or appropriate Student Development personnel, will take direct action concerning the termination of further consumption of alcoholic beverages, or the termination of the event itself.

3. Termination: Any University Police Officer has the authority to order the event terminated for the remainder of the time designated for that event if in his/her judgment, violations of the laws of the Commonwealth of Virginia or the University of Richmond Alcohol Policy are occurring. Public Consumption Policy

The laws of the Commonwealth of Virginia prohibit the consumption of alcoholic beverages, whether in primary or secondary containers, in unlicensed public areas. The University does not permit transportation of alcoholic beverages in open primary or secondary containers outside the designated areas. Therefore, use on campus is restricted to residence hall rooms (not public areas), University Forest Apartments, Gateway Village, Atlantic and Pacific House approved locations.

ID Policy and Process

Individuals who are of legal age and who possess and/or consume alcohol must be clearly identified by a wristband, hand stamp, or other type of highly visible identification approved by the Coordinator of Substance Abuse Education or Dining Services. If all individuals are 21 years of age or older, then a visible means of age identification may not be required. It is the responsibility of the ABC licensed provider or the sponsoring department/organization/approved guest/group to check a valid personal identification that verifies the age of the individuals entering an event. At ABC-licensed events, UR students must present their valid driver's license and, in addition, a University ID card may be required. Non-University individuals must present proof of age identification, such as a valid photo driver’s license. The University may require that the sponsoring group hire an individual to supervise or perform the identification process.

Beverage Service Procedures

Alcoholic beverages must not be self-served. There must be a beverage server(s) throughout the event responsible for the dispensing of alcoholic and non-alcoholic beverages to those in attendance. Unlimited service of alcoholic beverages is not permitted.

Beverage servers

Dispensing of alcoholic beverages by the beverage servers will be according to the following procedures:

1. Alcohol may not be dispensed to any individual who does not present proper age ID (e.g., wristband, stamp) for possession and consumption of alcohol.
2. Individuals may not be served more than one alcoholic beverage at a time at the Cellar or at student focused events.
3. Large containers (e.g., pitchers, buckets, jugs, etc.) will not be allowed or filled.
4. Beer served from a common container must be dispensed in no greater than 14 oz. increments. Cups used in serving beer must not exceed a total volume of 16 oz.

Beverage managers
1. The University may require that trained (e.g., TIPS) beverage or bar managers be hired for events. Beverage managers will be responsible for the supervision of individuals serving beverages. They also will be responsible for seeing that beverage servers are in compliance with all laws and University policies.
2. The beverage manager as well as University Police or representatives of the Student Development Staff have the right to remove beverage servers from their duties, or remove from the event individuals who are violating alcohol regulations or procedures.

Beverage distribution for open events
1. Dispensing of alcoholic beverages must be restricted to the boundaries of the facility or approved location. Example: Alice Haynes Room proper but not the hallway.
2. The University prohibits the distribution of unlimited quantities of free alcoholic beverages at events that last more than 2 hours. Use of tickets may be required at your event.
3. If alcoholic beverages are to be sold, the organization/department/approved guests/groups will control its distribution by selling tickets to be used in exchange for alcoholic beverages. Appropriate food and beverage taxes must be paid. Alcoholic beverages will be sold on a cost per beverage basis. No credit or “tabs” may be run.
4. If organizations/departments are to have individuals of non-legal age present at any event, University regulations and ABC regulations may require the organization/department to adhere to the following procedures:
   a. An area within the approved facility must be designated an alcoholic beverage service and consumption area. This area must have some type of physical barrier at which all access and egress is controlled. This may include a partition, a roped area, a separate room, etc. Only individuals of legal age may enter this area.
   b. Alcoholic beverages may be consumed by individuals in the controlled area only. No alcoholic beverages may leave this area. Appropriate signage should be in place.
